Dept of MCA,

DonBoscoCollege,

Angadikadavu, Kannur – 670 706.

ACKNOWLEDGEMENT

First of all I thank the lord Almighty for his immense grace and blessings showered on me at every stage of this work. I am greatly indebted to our Director Fr. Dr. Johny Jose SDB, Don Bosco College, Angadikadavu for providing the opportunity to take up this project as part of my curriculum.

I express my sincere thanks to Mr. Kevinson Kurian(HOD, Dept. of MCA, Don Bosco College), Ms. Desny Antony(Internal Guide), other Faculties, Management and Staff of Don Bosco College for the support throughout my MCA course.

.

Acknowledging the efforts of everyone, their chivalrous help in the course of the project preparation and their willingness to corroborate with the work, their magnanimity through lucid technical details lead to the successful completion of my project.

I would like to express my sincere thanks to all my friends, colleagues, parents and all those who have directly or indirectly assisted during this work.

Merin James

ABSTRACT

In olden times, a person with sufficient capital could start and manage a business successfully. This is not true anymore. Successful entrepreneurs utilize business intelligence to improve the quality of business. “Business Intelligence through Software” is a web application which helps to manage and improve a warehouse business. This application uses PHP as front end and MySQL Server as backend.
